#### **Detailed Action**

This office action is a response to applicant's communication submitted April 1, 2009 wherein claims 1-40 and 45-50 are cancelled and new claims 51-66 are introduced. This application is a national stage application of PCT/US03/39029, filed December 8, 2003, which claims benefit of provisional application 60/431812, filed December 9, 2002.

Claims 51-66 are pending in this application.

Claims 51-66 as amended are examined on the merits herein.

#### **Reasons for Allowance**

Applicant's amendment, submitted April 1, 2009, with respect to the rejection of instant claim 50 under 35 USC 112, second paragraph, for indefinitely describing the subject of claim 47 as a composition, has been fully considered and found to be persuasive to remove the rejection as the rejected claims have been cancelled. Therefore the rejection is withdrawn.

Applicant's amendment, submitted April 1, 2009, with respect to the rejection of instant claims 23-29 and 47 under 35 USC 102(e) for being anticipated by Belleau et al., has been fully considered and found to be persuasive to remove the rejection as the rejected claims have been cancelled. Therefore the rejection is withdrawn.

Applicant's amendment, submitted April 1, 2009, with respect to the rejection of instant claims 1-22, 30-40, and 45-47 under 35 USC 103(a) for being obvious over Belleau et al. in view of Merck in view of Kim et al., has been fully considered and found to be persuasive to remove the rejection as the rejected claims have been cancelled. Therefore the rejection is withdrawn.

Applicant's amendment, submitted April 1, 2009, with respect to the rejection of instant claims 1-40, and 45-47 under 35 USC 103(a) for being obvious over Liotta et al. in view of Merck in view of Kim et al., has been fully considered and found to be persuasive to remove the rejection as the rejected claims have been cancelled. Therefore the rejection is withdrawn.

Currently claims 51-66 are pending in this application and have been examined on the merits herein. Applicant's amendment submitted April 1, 2009, is seen to be persuasive to remove all rejections of record in the previous office action and place the application in condition for allowance. Reasons for allowance are as follows:

The claimed invention is seen to be adequately described and enabled by the specification as originally filed. Pp. 4-5 of the specification disclose methods of using the claimed dioxolane thymine compounds to treat resistant HIV strains including strains resistant to AZT, And further coadministering the additional active agents recited in claims 52, 53, 60, and 61. Example 1 on p. 15 specifically discloses using dioxolane thymine to treat specific strains including the claimed strains K65R, M184V, and T215Y.

Furthermore, the examples on pp. 15-21 provide sensitivity data which enables one skilled in the art to use these compounds for treating drug-resistant HIV. Making the necessary dioxolane thymine compounds is enabled by the reference Chu et al. which is incorporated by reference at the bottom of p. 10. Therefore the claims meet the requirements of 35 USC 112.

Furthermore the claims are novel and non-obvious over the prior art. The prior art does not disclose a method of treating the specific strains K65R, M184V, and T215Y recited in the instant claims. Because these strains are known to be resistant to other nucleoside analogs, there is no expectation in the prior art that they would be sensitive to this specific analog, namely dioxolane thymine. Therefore one of ordinary skill in the art would not have been motivated to administer them to a subject suffering from these drug-resistant strains. Thus the claims meet the requirements of 35 USC 102 and 103.

Accordingly, Applicant's amendment submitted April 1, 2009, in combination with the enclosed examiner's amendment, is sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric S. Olson whose telephone number is 571-272-9051. The examiner can normally be reached on Monday-Friday, 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shaojia Anna Jiang can be reached on (571)272-0627. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
